# Feedback survey responses

Areas of concern:

- Quizzes
- Homeworks
- Programming material

# Feedback survey responses (quizzes)

# Feedback survey responses (quizzes)

1. More opportunities are needed to practice for quizzes.

# Feedback survey responses (quizzes)

1. More opportunities are needed to practice for quizzes.
  - Going forward, each lecture will come with quiz practice questions. Some may be worked in class, others you can try on your own.

# Feedback survey responses (quizzes)

1. More opportunities are needed to practice for quizzes.
  - Going forward, each lecture will come with quiz practice questions. Some may be worked in class, others you can try on your own.
2. The quizzes are too hard / too long / go beyond class material.

# Feedback survey responses (quizzes)

1. More opportunities are needed to practice for quizzes.
  - Going forward, each lecture will come with quiz practice questions. Some may be worked in class, others you can try on your own.
2. The quizzes are too hard / too long / go beyond class material.
  - The quizzes are meant to be challenging; their intent is to push you not just to *memorize* but also to *understand*.

# Feedback survey responses (quizzes)

1. More opportunities are needed to practice for quizzes.
  - Going forward, each lecture will come with quiz practice questions. Some may be worked in class, others you can try on your own.
2. The quizzes are too hard / too long / go beyond class material.
  - The quizzes are meant to be challenging; their intent is to push you not just to *memorize* but also to *understand*.
  - If quizzes end up being harder than anticipated, final grades may be based on more generous cutoffs.

1. More opportunities are needed to practice for quizzes.
  - Going forward, each lecture will come with quiz practice questions. Some may be worked in class, others you can try on your own.
2. The quizzes are too hard / too long / go beyond class material.
  - The quizzes are meant to be challenging; their intent is to push you not just to *memorize* but also to *understand*.
  - If quizzes end up being harder than anticipated, final grades may be based on more generous cutoffs.
3. It would be good for the lowest quiz score to be dropped.

# Feedback survey responses (quizzes)

1. More opportunities are needed to practice for quizzes.
  - Going forward, each lecture will come with quiz practice questions. Some may be worked in class, others you can try on your own.
2. The quizzes are too hard / too long / go beyond class material.
  - The quizzes are meant to be challenging; their intent is to push you not just to *memorize* but also to *understand*.
  - If quizzes end up being harder than anticipated, final grades may be based on more generous cutoffs.
3. It would be good for the lowest quiz score to be dropped.
  - I will stick to the grading policies set out in the Syllabus unless exceptional circumstances require an adjustment.

# Feedback survey responses (homework)

# Feedback survey responses (homework)

1. The homeworks are too hard / too long / go beyond class material.

# Feedback survey responses (homework)

1. The homeworks are too hard / too long / go beyond class material.
  - The homeworks are meant to be challenging; their intent is to reinforce class material and push you beyond it.

# Feedback survey responses (homework)

1. The homeworks are too hard / too long / go beyond class material.
  - The homeworks are meant to be challenging; their intent is to reinforce class material and push you beyond it.
  - We expect that you will need help in office hours and on Ed Discussion to finish homework; take advantage of these resources.

# Feedback survey responses (homework)

1. The homeworks are too hard / too long / go beyond class material.
  - The homeworks are meant to be challenging; their intent is to reinforce class material and push you beyond it.
  - We expect that you will need help in office hours and on Ed Discussion to finish homework; take advantage of these resources.
2. More support is necessary for R Markdown formatting.

5. There are not enough office hours for homeworks due on Tuesdays.
  - Deadlines for homeworks due on Tuesdays extended from 12pm to 9pm so that you have my office hours before the deadline.

# Feedback survey responses (programming)

# Feedback survey responses (programming)

1. Not enough time in class is left to programming

# Feedback survey responses (programming)

1. Not enough time in class is left to programming
  - I will try to improve timing of class sessions to avoid rushing or not finishing the programming portion.

# Feedback survey responses (programming)

1. Not enough time in class is left to programming
  - I will try to improve timing of class sessions to avoid rushing or not finishing the programming portion.
2. It would be good if solutions to programming exercises were posted.

# Feedback survey responses (programming)

1. Not enough time in class is left to programming
  - I will try to improve timing of class sessions to avoid rushing or not finishing the programming portion.
2. It would be good if solutions to programming exercises were posted.
  - The teaching staff does not have the bandwidth to do so, but I encourage students to “crowd-source” solutions via Ed Discussion.

# Feedback survey responses (programming)

1. Not enough time in class is left to programming
  - I will try to improve timing of class sessions to avoid rushing or not finishing the programming portion.
2. It would be good if solutions to programming exercises were posted.
  - The teaching staff does not have the bandwidth to do so, but I encourage students to “crowd-source” solutions via Ed Discussion.
  - Students posting solutions will be more likely to get participation extra credit, and instructors will chime in to resolve any confusing parts.

  - Students posting solutions will be more likely to get participation extra credit, and instructors will chime in to resolve any confusing parts.
3. It would be good if programming paradigms beyond tidyverse were covered.
  - Unfortunately limited time prevents me from doing so. The tidyverse is a great starting point and is the best way to go in most cases.

**Any other feedback?**
